

SECTION: NURSING SERVICES

POLICY #:408 COUNTY HEALTH MAINTENANCE CLINICS

POLICY: Central Valley Health District will conduct health maintenance clinics throughout Stutsman/Logan counties. Services are staffed by an RN. The purpose of health maintenance clinics is to provide services at convenient locations throughout the service areas.

PROCEDURES:

1. Most services available at the main office will be available at specified county sites.
 - a. Services will be rendered to all ages.
 - b. Services available at county sites will include, but are not limited to the following:
 - Blood pressure
 - Blood sugar
 - Hemoglobin*
 - Urinalysis*
 - Immunizations
 - Diet counseling*
 - Rapid inspections
 - Health counseling
 - Medication monitoring
 - Throat cultures
 - Heart and lung sounds
 - Weight monitoring
 - Hearing screening*
 - Vision screening*
 - Injections
 - Lipid profile, as scheduled
 - Flu injections
 - Pneumonia injections*
 - Foot Cares

*These services can be made available at county sites by special arrangement

2. Hours for sites will be individually determined according to usage and availability of space.
3. Referrals will be made according to referral guidelines for each area assessed.
4. Privacy will be respected.
5. Client will receive chart as outlined in client record policy.
6. Documentation will be done per documentation policy.
7. Supplies for conducting health maintenance clinics are the responsibility of Central Valley Health District.
