

PARTNERSHIP FOR SUCCESS

The **Partnership for Success (PFS) grant** is a federally funded grant program requiring states to use the successful evidence-based prevention systems and structures put in place through their completed Strategic Prevention Framework State Incentive Grant (SPF SIG).

FUNDING STREAM:

Substance Abuse and Mental Health Services Administration (SAMHSA)

N.D. Department of Human Services: Behavioral Health Division

11 high need N.D. Local Public Health Units & Tribes

Prevention of underage drinking among 12-20 year olds

PRIORITY

SAMHSA's PFS Grant Goals:

- Prevent the onset and reduce the progression of substance abuse
- Reduce substance abuse-related problems
- Strengthen prevention capacity/infrastructure at the state and community level
- Leverage, redirect and align funding streams and resources for prevention

INTERVENING VARIABLES

Retail Access

Social Access

Community Norms

Enforcement

THE PROBLEM

62.1% of ND high school students had at least one drink of alcohol on at least one day during their lifetime. YRBS, 2015

30.8% of ND high school students report current alcohol use (within the past 30 days). YRBS, 2015

17.6% of ND high school students report binge drinking in the last 30 days (consuming 5+ drinks in a row). YRBS, 2015

91.9%

of ND adults perceived youth alcohol use in their community as a problem. CRS, 2015

WHY PREVENTION?

[prevention]: a proactive approach; creating an environment that promotes the health and well-being of individuals and communities, which prevent problems before they occur.

Prevention is rooted in science & follows the Public Health Model

FOCUS: reducing risk factors, strengthening protective factors, and building resiliency of individuals, families & communities.

90.6%  of ND adults agree that preventing alcohol & other drug use among youth is important. CRS, 2015

Evidence-based prevention practices have been proven to be cost-effective, **saving up to \$64 for every \$1 invested.** Surgeon General: WSIPP, 2016
