2. "Phototherapy device" means equipment that emits ultraviolet radiation and is used in treating disease.
3. "Tanning device" means equipment that emits electromagnetic radiation having wavelengths in the air between two hundred and four hundred nanometers and which is used for tanning of human skin and any equipment used with that equipment, including food and drug administration-approved protective eyewear, timers, and handrails. The term does not include a phototherapy device used by a physician.
4. "Tanning facility" means a place or business that provides individuals access to a tanning device.

### **23-39-02. Permit - Fee.**

1. A person may not operate a tanning facility without a permit issued by the department under this chapter. The holder of a permit shall display the permit in a conspicuous place at the tanning facility for which the permit is issued. Permits issued under this chapter expire annually. An applicant for a permit shall submit an application for a permit to the department, on a form provided by the department, with a permit fee established by the department. The application must include the name and complete mailing address and street address of the tanning facility and any other information reasonably required by the department for the administration of this section.
2. The permit fee established by the department must be based on the cost of conducting routine and complaint inspections and enforcement actions and the cost of preparing and sending license renewals. Any fee collected under this section must be deposited in the department's operating fund in the state treasury and any expenditure from the fund is subject to appropriation by the legislative assembly. The department shall waive all or a portion of the permit fee for any tanning facility that is subject to local jurisdiction.

2. A tanning facility shall give to each of the tanning facility's customers written notice of the following:
  - a. Failure to wear the eye protection provided by the tanning facility may result in damage to the customer's eyes and may cause cataracts;
  - b. Overexposure to a tanning device causes burns;

- c. Repeated exposure to a tanning device may cause premature aging of the skin and may cause skin cancer;
  - d. Abnormal skin sensitivity or burning of the skin while using a tanning device may be caused by:

Repeated exposure can cause chronic sun damage, which is characterized by wrinkling, dryness, fragility and bruising of the skin, and skin cancer.
  - c. Wear food and drug administration-approved protective eyewear.
  - d. Ultraviolet radiation from tanning devices will aggravate the effects of the sun, so do not sunbathe during the twenty-four hours immediately preceding or immediately following the use of a tanning device.
  - e. Medications and cosmetics may increase your sensitivity to ultraviolet radiation. Consult a physician before using a tanning device if you are using medications, have a history of skin problems, or believe that you are especially sensitive to sunlight. Women who are pregnant or using birth control pills and who use a tanning device may develop discolored skin.
  - f. If your skin does not tan when exposed to the sun, it is unlikely that your skin will tan when exposed to this tanning device.
4. The tanning facility shall maintain a record of the date on which each fluorescent tube is replaced.
5. An owner or employee of a tanning facility may not claim, or distribute materials that claim, that using a tanning device is free of risk.

  - e. A customer is not allowed to use a tanning device unless the customer agrees to use food and drug administration-approved protective eyewear.
  - f. A customer is shown how to use such physical aids as handrails and markings on the floor to determine the proper distance from the tanning device.

If a health care provider treats a patient for a sunburn injury and determines, in the exercise of professional judgment, that the injury occurred as a result of using a tanning device at a tanning facility, the health care provider shall report the circumstances of the injury to the department of health and human services. A health care provider making or not making a report in good faith pursuant to this section is immune from liability for making or not making a report.
